

# ONLINE TRAINING PROGRAM TO PROMOTE SUICIDE COUNTERMEASURES AT UNIVERSITIES

In recent years, the issue of suicide among university students has become serious. Faculty and staff need the skills and knowledge necessary to support students' lives. There are also countermeasures that universities as organizations can take. Let's work together to create a university where no one is driven to suicide.

## 1 Overview of Suicide among University Students

Recent trends and underlying factors behind student suicides

Created by Japan Suicide Countermeasures Promotion Center

For all university faculty and staff

## 2 Suicide Countermeasures—Individual Skills

Noticing suicidal students, listening with empathy, and connecting them to appropriate support

Lecturer: Professor Terumi Ishii  
(Health Support Center, Waseda University)

Certificate of completion provided

For health management staff

## 3 Suicide Countermeasures—Organizational Skills

Creating a university where no one is driven to suicide

Lecturer: Professor Hirokazu Tachikawa  
(Department of Disaster and Community Psychiatry, Institute of Medicine, University of Tsukuba)

Unlimited review available
